-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 54-58, 71-75 are being acted upon are pending.

2. In view of the instant amendment and response, filed 7/15/04, the previous rejection under the second paragraph of 35 U.S.C. 112 has been withdrawn.

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 54-58 and 71-75 stand rejected under 35 U.S.C. § 112, first paragraph, as the specification does not contain a written description of the claimed invention, in that the disclosure does not reasonably convey to one skilled in the relevant art that the inventor(s) had possession of the claimed invention at the time the application was filed. This is a new matter rejection.

As set forth previously, the specification and the claims as originally filed do not provide support for the invention as now claimed, specifically: "A method ... wherein the anti-ds antibody binds to the same epitope as an R4A antibody" in Claim 54.

Applicant's arguments, filed 7/15/04, have been fully considered but they are not persuasive. Applicant asserts that additional cites throughout the specification support the invention as now claimed.

It remains the Examiner's position that generic teachings of the specification cannot support the specific limitation set forth in Claim 54.

Applicant argues, "In the present case, the skilled artisan, reading the specification at the time of filing, would recognize that the applicants envisioned preventing binding of antibodies that bind to the same epitope as the R4A antibody, since the specification specifically describes the use peptide sequences which define epitopes recognized anti-dsDNA antibodies, e.g., at page 2, lines 15-17; additionally the specification describes the R4A antibody as an anti-dsDNA antibody. It is thus clear that the applicants envisioned at the time of filing the use of the

peptides for preventing binding of anti-dsDNA antibodies that bind to the same epitope as the R4A antibody."

It remains the Examiner's position that Applicant's assertions regarding what the skilled artisan would have recognized the invention of the instant claims to be are insufficient to support the invention as now claimed. In the instant case, the specification discloses a method employing a single species (the R4A antibody); Applicant is now claiming a method employing an entire genus (an antibody that binds the same epitope as the R4A antibody). It remains the Examiner's position that the disclosure of a single species is insufficient to support an entire genus.

5. No claim is allowed.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (571) 272-0843.
